

Where do you start?

If you didn't complete high school, you can:

- Pass the GED® test to earn a high school equivalency diploma issued by the state.
- Earn 12 credit hours with a grade of C or higher in four qualifying, general education courses at a Kentucky Community and Technical College System (KCTCS) school and be awarded a high school equivalency diploma issued by the state.

If you're eligible, you can receive free educational services at a Kentucky Skills U center — there's an office in every county. You must be at least 18 years old, live or work in Kentucky, and not be enrolled in high school. Your adult education center may provide the Ready™ test free as part of your educational plan. For a list of Skills U centers, go to kyskillsu.ky.gov.

If you want to earn a GED®, create a *MyGED*® account at www.ged.com, where you can find information about preparing for and taking the test in Kentucky. Your account has links to study guides, Kentucky Skills U centers, a list of Kentucky test centers and a test schedule.

You also may be able to take online classes through Skills U. You'll need internet access and an email account. Your KY Skills U adult education program will work with you on an online learning plan. For a list of Skills U centers, go to your *MyGED*® account or see pages 8–13.

To earn a GED®, you must pass the four parts of the test: mathematics, language arts, science and social studies. The test must be taken on computer at an official testing center.

Kentucky residents must be 19 or older to take the GED® test or, if 18, have been officially withdrawn from school for at least 90 days as certified by the local school district (school superintendent may waive waiting period). The withdrawal form and directions for submitting it are available at your *MyGED*® account at www.ged.com.

Those taking the test must also have a Kentucky address and pass the GED Ready® official practice test. You can find the Kentucky testing policies at your *MyGED*® account at www.ged.com.

Testing accommodations are available for people with documented disabilities. If you need a testing

accommodation, you can ask for details when you create your *MyGED*® account. You can also email accommodations@ged.com for more information.

To earn a Kentucky high school equivalency diploma by taking college classes, you must be at least 19 years old, not have a high school diploma or its equivalent, have a Kentucky address and meet the admission and placement requirements of KCTCS institutions. Enroll in a KCTCS college and complete at least 3 credit hours in each of the following content areas, as certified with an official KCTCS transcript — written communication, quantitative reasoning, natural sciences, and social and behavioral sciences. You must earn at least a C in each required class. Once you have completed the courses, there is a \$25 application and processing fee to receive the diploma. You can find a list of the approved classes and obtain the application form at kyskillsu.ky.gov or by calling 502.573.5114.

If you have already earned a Kentucky high school equivalency diploma and need your transcript for employment or enrollment in postsecondary training or education, make your request at www.ged.ky.gov.

Graduates, GED® holders, former college students

The admissions office of the college you plan to attend can help you get started. If the school has an office that serves nontraditional students, that would be the best place to start.

You can also contact an area Educational Opportunity Center for help.

Educational Opportunity Centers and Talent Search programs

EOC and TS programs provide free services to adults entering or reentering college.

EOC counselors can help adults 19 and older with planning for college, exploring careers, locating free tutors, and submitting college admissions and financial aid applications. Financial aid forms can be filed electronically at some EOC locations, saving time and reducing errors.

TS programs provide academic, career and financial counseling to help middle and high school students and people who haven't completed secondary or postsecondary education. All participants must have the potential to complete secondary school and undertake postsecondary education.

TS generally helps people age 11 to 27 but can serve older adults if there is no EOC in the area. The program provides tutorial services, career aptitude assessments and help completing and submitting college admissions and financial aid applications.

See page 6 for a list of EOCs and page 7 for a list of TS centers.

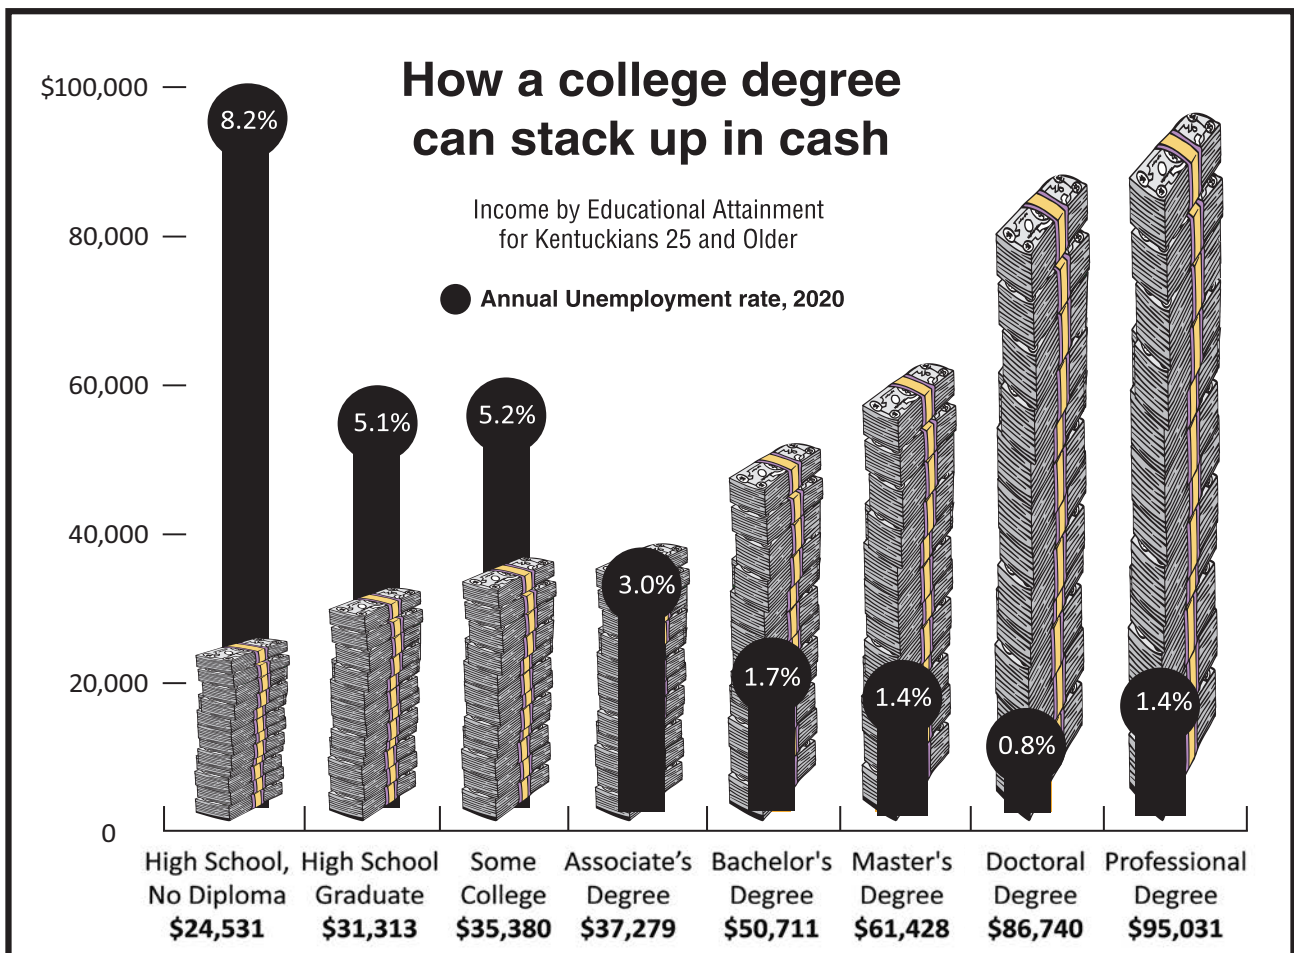

Kentucky Educational Television support materials

KET offers *FastForward*, a series of online tutorials and workbooks, to help adult students who want to prepare for the GED® and other high school equivalency exams. Key skills are explained through examples, strategy suggestions and practice questions. Learners can study independently at home or as part of a learning center class.

KET also offers *Workplace Essential Skills*, a series of online tutorials, DVDs and workbooks that prepare adults to enter or re-enter the workforce. The curriculum focuses on the math and language arts skills needed to succeed in high-demand career fields, such as health care and manufacturing. Other essential workplace skills addressed include punctuality, customer service, problem solving, critical thinking, communication and conflict resolution. The series also provides training on résumé writing and job searching.

For English language learners, KET offers online tutorials to help build the language skills necessary in connecting with growth-sector employment and career advancement opportunities in America.

Costs for all KET products are provided at www.ket.org/education/courses/catalog/adult-education/.
