Loan Cost Examples

The total amount you will pay for this loan will vary depending upon when you start to repay it. This example provides estimates based upon the repayment options available to you while enrolled in school at least half time.

Repayment Option	Amount Provided (amount provided directly to you or your school)	Interest Rate (highest possible starting rate)	Loan Term (how long you have to pay off the loan)	Total Paid Over 10 Years (includes associated fees)
1. MAKE FULL PAYMENTS Pay both the principal and interest amounts while enrolled in school. Note: This is the only option available for students enrolled less than half time.	\$10,000	6.34%	10 years starting <u>after</u> your final disbursement	\$13,447.00
2. PAY ONLY THE INTEREST Make interest payments but suspend payments on the principal amount until 6 months after no longer enrolled in school at least half time for up to 72 months (deferment period).	\$10,000	6.59%	10 years starting <u>after</u> the deferment period	\$14,352.70
3. DEFER PAYMENTS Have payments suspended until 6 months after no longer enrolled in school at least half time for up to 72 months (deferment period). Interest will be charged and added to your loan.	\$10,000	6.99%	10 years starting <u>after</u> the deferment period	\$14,875.00

About this example

The repayment examples are based on the highest interest rate currently charged and assume that you remain in school for 4 years. If you choose to make full payments, your loan will immediately convert to repayment after your final disbursement. If payments on your principal balance are made while you are enrolled, the total payment amount will be less. If no payments are made while you are enrolled at least half time, interest will accrue and will be capitalized at the end of the deferment period.
