# First-time student loan borrowers must complete entrance counseling

Kentuckians who are borrowing their first federal student loans for the coming academic year must complete entrance counseling.

“Many students take out loans to help them pay for higher education,” said Gov. Andy Beshear. “If you apply for a loan, entrance counseling can help you make sure you understand the responsibility that goes along with borrowing money and have a plan for repaying the loans.”

The U.S. Department of Education requires borrowers to complete entrance counseling before they can receive loan funds.

The department offers online counseling at [studentaid.gov](http://studentaid.gov) under the Complete Aid Process tab. The counseling should take between 20 to 30 minutes. Borrowers should check with their college to see if the federal counseling session is accepted as some schools have alternate counseling program requirements.

## Kentucky elementary schools receive national recognition

Flaherty Elementary in Meade County and Kenwood Elementary in Jefferson County have been recognized as National ESEA Distinguished Schools.

The recognition comes from the National Association of ESEA State Program Administrators, which promotes high-quality education for disadvantaged children.

Flaherty Elementary was recognized for closing the achievement gap between student groups. Kenwood Elementary was recognized for excellence in serving special populations of students, such as homeless, migrant and English learners.

## Students, parents should take verification seriously

The federal government requires many students who submit the Free Application for Federal Student Aid (FAFSA) to verify the information they reported. The U.S. Department of Education chooses the students whose FAFSA information is verified. Their parents may also be required to provide information.

“Verification ensures that the students who really need financial aid to pay for college or technical training receive it,” Gov. Andy Beshear said. “Students chosen for verification must complete the process before they can receive financial aid, so families should prepare to provide the requested information as quickly as possible.”

As soon as students are notified their FAFSA is being verified, they should begin the process. Putting it off will only lead to frustration if the process isn’t finished when classes are ready to start.

Many colleges do the verification themselves. Others have an agency handle the process. KHEAA provides verification services to over 30 schools, about half of them in Kentucky.
