FSA updates its e-training website

Federal Student Aide updated its e-training website on July 1. The site provides enhanced navigation and a more intuitive approach to online learning.

New Features:

Learning Tracks
Because aid administrators have limited time for online training, the site lets users access specific learning tracks instead of offering a lengthy comprehensive course. The learning tracks target Title IV programs and subjects in shorter modules.

Dashboards
A new link to your own personal dashboard will:

• display courses you have taken
• courses you are enrolled in
• a record of learning
• learning plans that you or your supervisor develop

Search Function
Learners can search for courses by typing a subject or topic into a search tool.

Fundamentals Workshops
A real-time display for current workshops will provide a summary of locations, seats available and waitlist levels to help you with your training plans.

AskRegs Knowledgebase Answers:
Can we reallocate subsidized and unsubsidized Direct Loan amounts after the academic year ends?

According to guidance NASFAA has received from the Department of Education, a school cannot increase a Direct Loan after the period of enrollment/loan period is over. You are able to reduce a subsidized or unsubsidized loan amount after the loan period ends. To see the full answer to this question and to search for more on reallocating loan amounts and search for answers to your other pressing regulatory and compliance questions, visit NASFAA’s AskRegs Knowledgebase.
Bryan Erslan, Director of Student Financial Assistance, Eastern Kentucky University, chose financial assistance as a career to get off the road recruiting as an admissions counselor. He has stayed in this profession because of the satisfaction of seeing graduation ceremonies. He feels those ceremonies are a testament to the work done in the financial aid profession.

Spending time with his wife, Micki, and his four kids — Kara, Kelsey, Peyton and Brett — and traveling are two things he really enjoys doing. They also give him the strength and energy to do what he does through work.

Erslan says, “Without KHEAA Verify we would really be hurting. To complete verification on the numbers we are seeing would severely impact the services we can provide to students and families. We appreciate the relationships we have with the staff at KHEAA/KHESLC. If we run into any issues, we can make one call and get things rolling to resolve any matter that may come up throughout the year.”

A new Google search feature gives users access to information about four-year colleges.

The new feature searches public information available from the U.S. Department of Education’s College Scorecard and Integrated Postsecondary Education Data System. It is primarily designed for mobile use but includes some features for desktop computers.

The information available includes average cost after aid is applied, undergraduate enrollment rates and similar colleges.
