

Chapter 3

COLLEGES

SCHOOL INFORMATION

This section provides information about costs, admissions, financial aid and majors at Kentucky colleges. **Included in the estimated cost of attendance are in-state tuition and fees, room and board, books, supplies, transportation and personal costs.** Some schools that don't have on-campus housing have provided figures showing the housing cost they use in figuring your cost of attendance. If not, we have estimated them.

Information in this chapter will almost certainly change before you start college. For the most up-to-date information, contact the school you plan to attend.

Included in this section of this chapter is information about Kentucky four-year and two-year degree-granting colleges and universities. Four-year schools offer bachelor's degrees, and many offer advanced degrees as well. Two-year schools offer associate's degrees, and many also offer certificates and diplomas. The final section has information about technical schools whose programs lead to diplomas or certificates rather than two- or four-year degrees.

The agencies at right license these kinds of trade schools in Kentucky and can be contacted for more information about the training programs listed in this section, as well as those of other technical schools not included in *Getting In*.

Most of the information in the following pages was provided by the schools. If a school did not respond to our request, the information may have come from the school's website. Some Kentucky schools that provide financial aid may not meet KHEAA's guidelines for inclusion in Getting In or may not have responded to KHEAA's request for information about their school. Students attending these schools should check with the school's financial aid office for information about their financial aid programs.
